I am a motivated, affable, young professional who excels in cultivating relationships. I have a strong work ethic, a desire to achieve set goals and exceed expectations, while maintaining the morals of the company.

Education:

Oakton High School: 2016-2018

Flint Hill School: 2018-2020

Loyola Marymount University: 2020-2022

Lehigh University: 2022-Present

Work Experience:

Culinary culinary school: June 24-28 2019:

I worked as a chef's assistant. I prepared the requisite ingredients and their corresponding quantities prior to the chef giving their lesson. I assisted the clients in their process of learning and making new foods by providing undivided attention and support.

Tri-State Fireworks Inc: June 26-July 4 2020:

As a salesman, my job was to determine the customer's wants and upsell them to either purchase a more expensive product or a higher quantity of products. On the Fourth of July, I personally achieved in excess of \$20,000 in sales.

Event Operations, Loyola Marymount University, August 30 2021- May 6 2022:

My job at Loyola Marymount University was an event operations assistant. I assisted the manager in setting up or taking down the equipment used for school events. We worked directly with the clients of these events so that the materials were set up precisely how they wanted them to be.

The Financial Planning Group LLC, May 16th 2022 - August 8th 2022:

The Financial Planning Group LLC is a financial subsidiary of MassMutual. I worked directly with Joshua Winston, a family-planning advisor. My role was to expedite the process of investment accounts being created by taking care of the necessary documentation and assuring

the accounts were successfully created in MassMutual's software with the requisite amount of assets. Through this process I became adept with Salesforce, Outlook, and Calendly.

Undergraduate Teacher's Assistant, Lehigh University, August 28th 2023- Present:

I am an undergraduate teaching assistant for ENGR 010 Applied Engineering Computer Methods. My role is to guide students in their weekly python assignments, their biweekly python-engineering assignments, and their biweekly lab assignments during their lab section and my assigned office hours. I am also responsible for grading their biweekly python-engineering assignments and their biweekly lab assignments.

Volunteer Experience:

Joey Pizzano Memorial Fund: March 2019- May 2019:

The Joey Pizzano Memorial Fund was created in honor of Robert and Paolo Pizzano's son, who had down syndrome. He died when he was 6 years old from drowning in a pool in their backyard when they went inside for just a moment and left him unattended. The goal of the fund is to provide children with disabilities the skills needed to safely swim in a pool so that this tragedy never happens again. Every Sunday I went to a local recreation center where a team of trainers and I worked with the children in the pool. We would teach them skills such as floating, kicking, and other safe practices while trying to make it fun for them.

Hobbies:

- Reading
- Programming
- Guitar
- Golf
- Exercise

Achievements:

Dean's List: Spring 2022, Loyola Marymount University; Spring 2023 Lehigh University:
In the spring of 2022 at Loyola Marymount University and the spring of 2023 at Lehigh University I received a 4.0 GPA.

High School Football State Champions 2018, Flint Hill:

My junior year my football team won the state championship. This would not have been possible without the relentless determination and sacrifices I and my teammates made. As a person motivated by success, I believe trust and effective communication with my colleagues is just as pertinent as my fervent pursuit of a goal. Creating strong relationships with those whom I work

with while consistently keeping my colleagues abreast of new developments is paramount to creating an auspicious work environment. I am full of alacrity to bring my vim and vigor to your company.
